INFORMATION DISCLOSURE STATEMENT
PURSUANT TO 37 C.F.R. § 1.97(b)

Listed on the accompanying form PTO-1449 and enclosed herewith are several English-language and/or non-English-language documents. The relevance of the non-English-language documents is that each was cited in the International Search Report and/or the International Preliminary Examination Report for related Application No. PCT/JP2004/019393. Applicants respectfully request that these documents be listed as references cited on the issued patent.

As the present application was filed after June 30, 2003, copies of United States patents and United States published patent applications do not have to be provided to the Patent Office. This requirement of 37 C.F.R. § 1.98(a)(2)(i) has been waived by the United States Patent and Trademark Office (USPTO) pursuant to the Official Gazette Notice on August 5, 2003 (1276 OG 55). Applicants will provide copies of such patents upon request.

Copies of the references listed on the accompanying PTO-1449 that were cited in an International Search Report for corresponding International Application No. PCT/JP2004/019393

are not enclosed because copies should have been provided directly to the USPTO by WIPO under an exchange program between the USPTO and the Japanese Patent Office. However, Applicants will provide copies of such references upon request.

Applicants filed this Information Disclosure Statement ("IDS") before the mailing of a first Office action on the merits. As a result, no fee should be required to file this IDS. However, if the Patent Office determines that a fee is required for Applicants to file this IDS, please charge any such fees, or credit overpayment, to Deposit Account No. 02-4550. A **duplicate copy** of this IDS is enclosed.

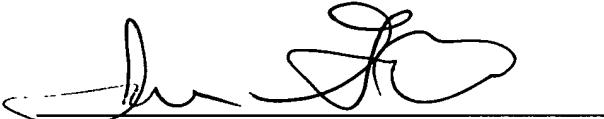

The filing of this IDS shall not be construed to be an admission that the information cited in the statement is, or is considered to be, prior art or otherwise material to patentability as defined in 37 C.F.R. §1.56.

Respectfully submitted,
